

October 12th Newsletter

News!

We have been reviewing our colors, shapes and numbers during circle time. The kids love singing lots of songs from the wheels on the bus to the itsy bitsy spider to then transitioning to the alphabet. We are now on letter C and moving on to letter D next week. The children enjoy learning new words, with the sound of each letter and we have started making a game out of it during circle time as well.

We have been very busy learning about the holidays. This week we have paid special attention to the holiday of Sukkot. We "built" our own sukkah, collected leaves for the schach, and painted it. Next week we will learn about the holiday of Simchat Torah. We will be making our own Torahs and flags to dance with on Simchat Torah.

Teacher's Corner:

We can't believe it has been a month since the first day of school. Time has flown by so quickly! We have learned so much about your child, from their likes/dislikes in food, to their favorite toys. The children have been doing very well with all the new adjustments we have made to the new schedule and are starting to remember the routines which is great! We would like to take this opportunity to thank you for your patience and support throughout the first month of school.

Reminders:

Mother nature has been very unpredictable lately and we would like to ask you to please bring in your child with a jacket or sweater.

Thank you,
Morahs Paola & Chana
